

MR. BROWN L O N D O N

Mr. Brown table tops and bases offer a wide choice of shapes, sizes and finishes. The tables below show all the possible combinations of bases and tops. Any combination of top and base is easily assembled with a small number of fixings and the appropriate tool supplied by us; all holes are pre-drilled. The Sub-top is fastened to the base from above, using the hardware provided. The chosen top is then attached to the Sub-top from below using the hardware provided. A small center stud will locate Sub-top and Top together, making all screw holes easily aligned.
