Fabric Care Guide

VELVET CARE Mr Brown designs upholstered in velvet are beautiful, luxurious and long lasting. No wonder: Velvet is the textile of kings, nobles and interior designers.

- Most velvets are treated with a crush-resistant and stain-repellant finish. Occasional vacuuming keeps the velvet fibers free of dust and debris.
- Most stains can be blotted or wiped away with a damp cloth or paper towel. Spot cleaning is recommended for dried stains. Test an inconspicuous area first. Using a gentle soap and water or a commercial dry cleaning product, start from the outside of the stain, working your way to the middle. Once dry, brush in the direction of the pile with soft dry brush to restore the loft. Repeat process if necessary.
- Antiquing or light bruising is natural to velvet. To improve marks, light steaming or gentle brushing in the direction of the pile is recommended. Know that some marks may never disappear. This is a coveted attribute, not a defect. Like leather, velvet becomes more luxurious over time.

LINEN CARE Linen is one of the world's oldest textiles, renowned for its strength and beauty. Used as a form of currency in ancient Egypt, today linen is a favourite choice for upholstered furniture amongst interior designers.

- Occasional vacuuming keeps the linen fibers free of dust and debris.
- Most stains can be blotted or wiped away with a damp cloth or paper towel. Spot cleaning is recommended for dried stains. Test an inconspicuous area first. Using a gentle soap and water or Carbona, start from the outside of the stain, working your way to the middle. Air dry. Repeat process if necessary.
- Mr Brown linens are preshrunk for precision tailoring. As a result, never apply heat.

PERFORMANCE FABRIC CARE Mr Brown's growing selection of indoor/outdoor performance fabrics from partners like Sunbrella are engineered to endure and resist staining.

- Always brush off loose dirt, and wipe up spills or clean stains soon after they occur.
- Spray on a cleaning solution of water and mild soap. Use a soft bristle brush to clean. Avoid scrubbing. Allow the solution to soak into the fabric. Rinse thoroughly until all soap residue is removed. Air dry.
- See Sunbrella for detailed cleaning and care instructions.
